IN CLASS ASSESSMENT

Zanthie
North Mandurah Primary

"I really like learning about the history of architecture.
HASS with Miss Spence is my favourite subject."

Shelby Oakwood Primary

When I came to John Tonkin College I only had one friend from Oakwood, but by the end of Term 1, I had met a big group of friends.

I like that we have the freedom to walk around school during the day and we aren't stuck in one class. I'm in the Surf Science Program and have learnt to Stand-Up Paddleboard (SUP) and we had a camp in Dawesville at the Marine Centre in Term 1 which was lots of fun.

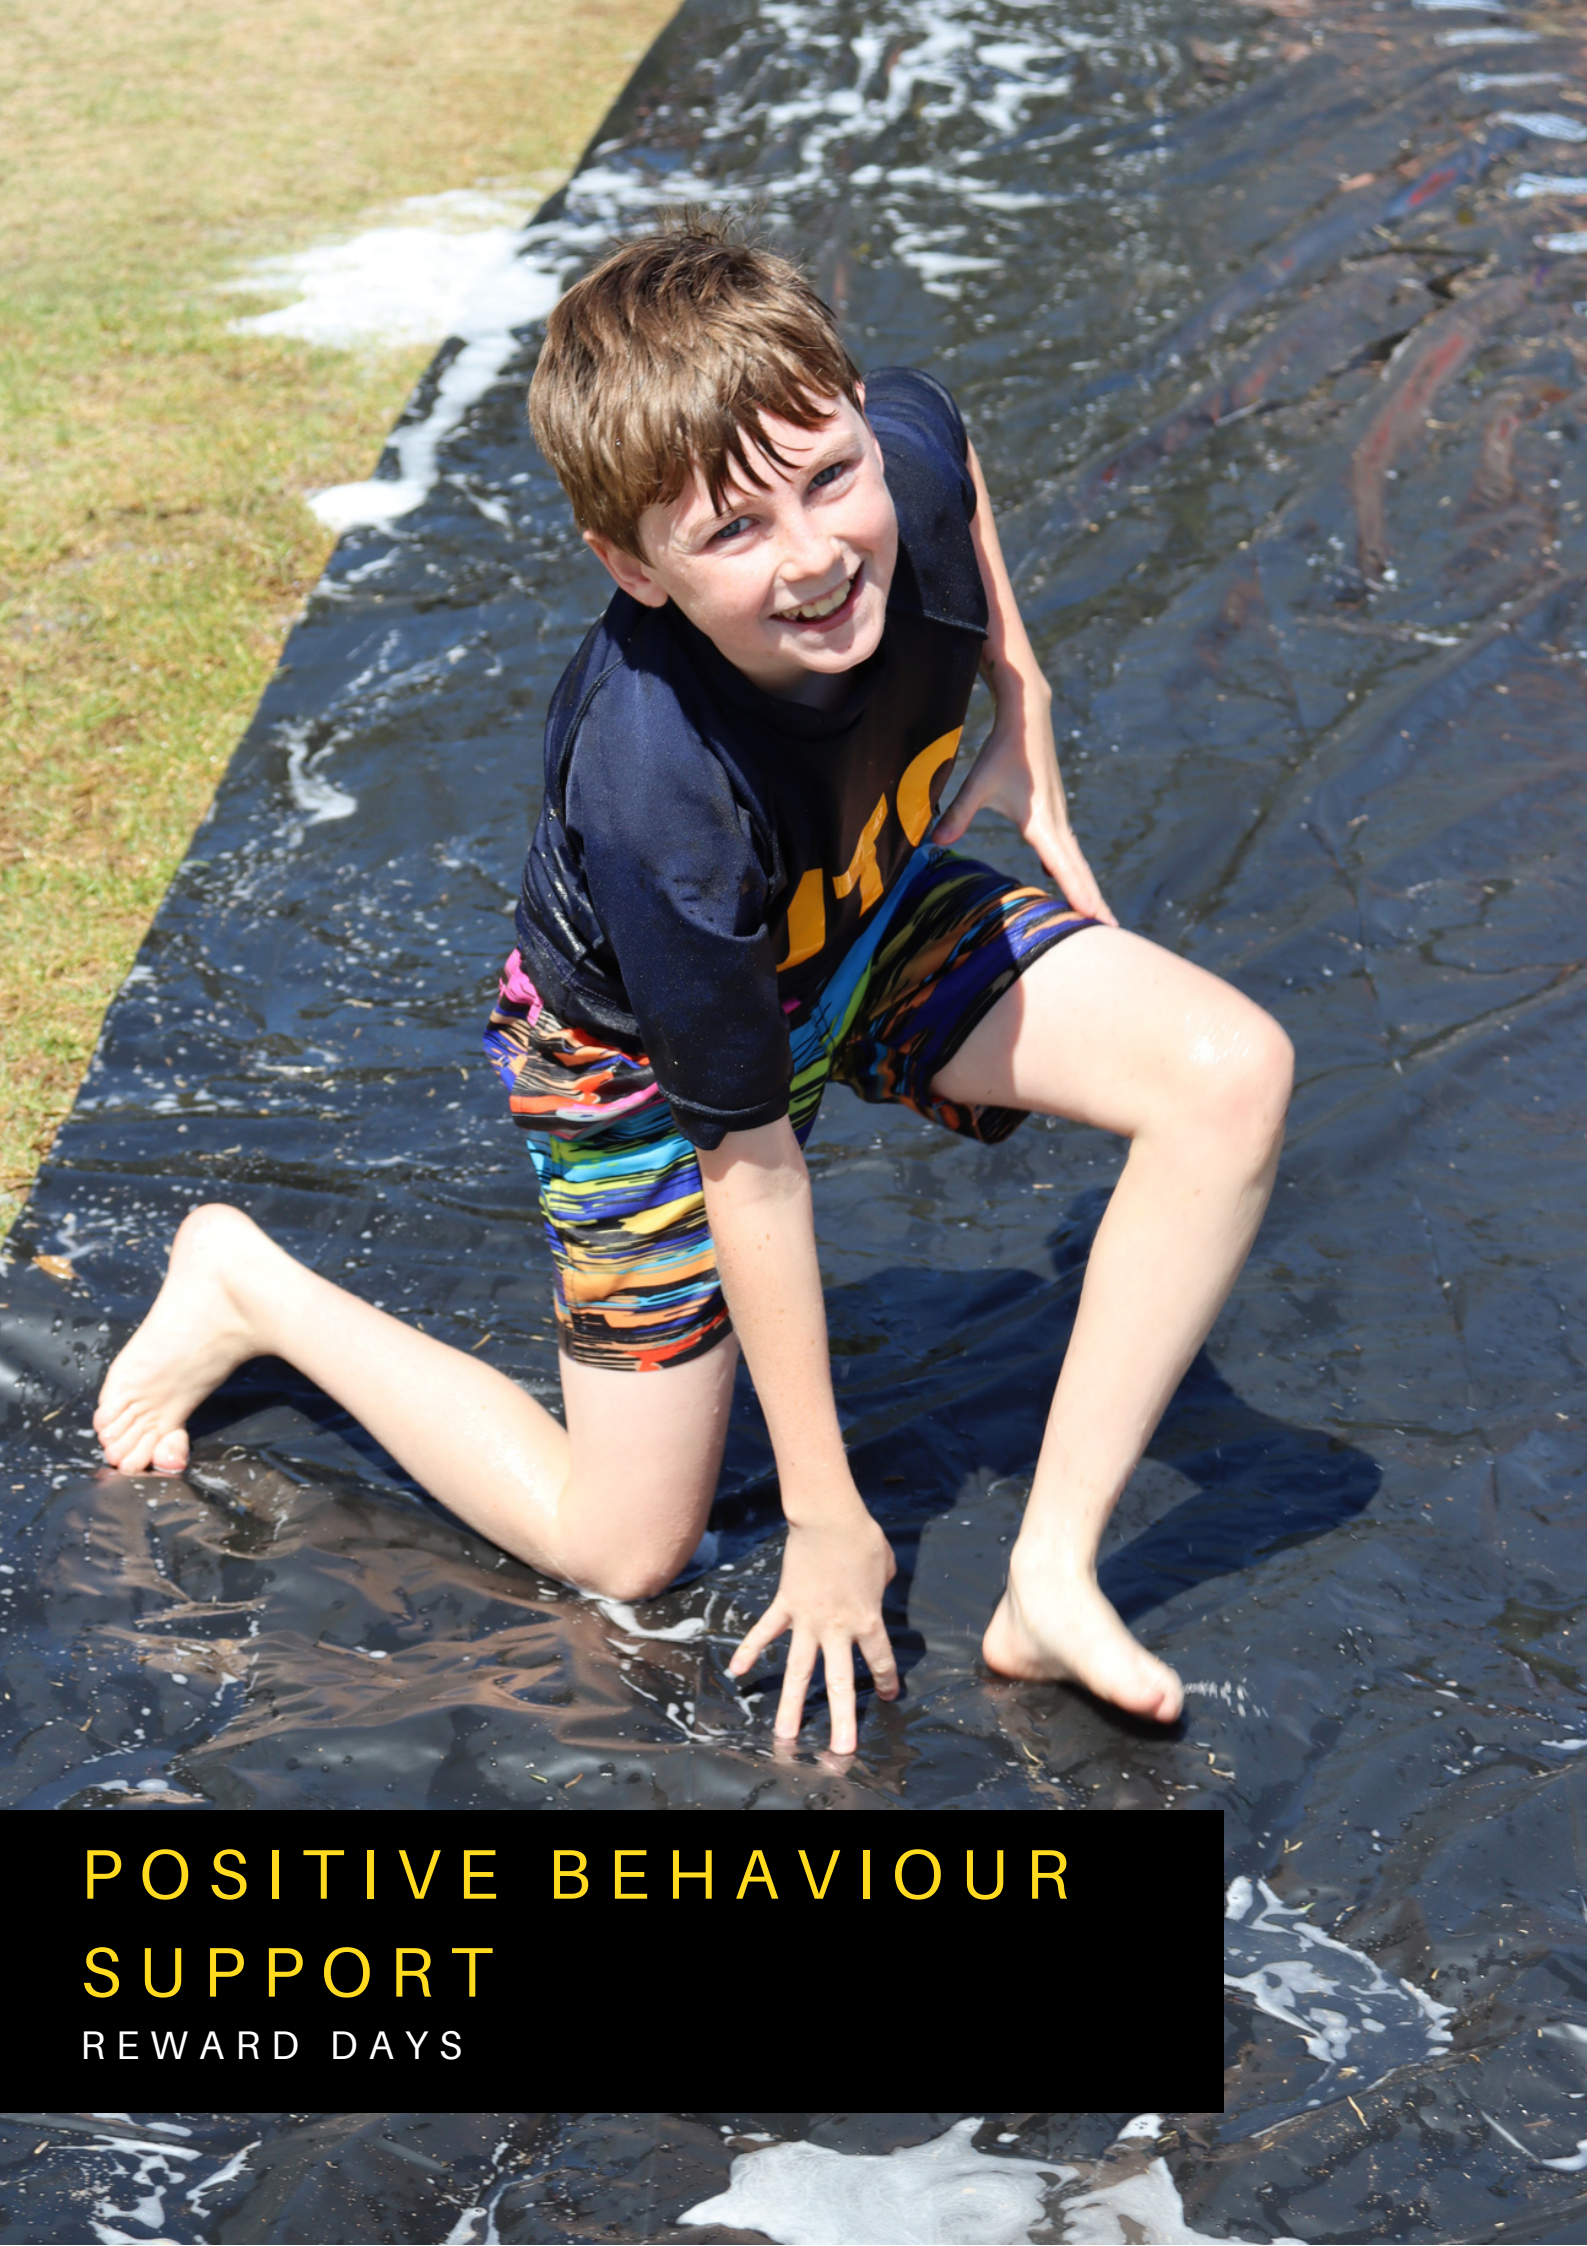

**"MY MUM LIKES IT WHEN I
BRING HOME LEFT OVERS
FROM COOKING!"**

Cassius Glencoe Primary

My favourite thing about JTC is how we get to be more active during the day. I really like my Surf Science Specialist class with Mrs Naidoo, our classroom is mostly outdoors at the Dawesville Marine Centre. My favourite lesson is surfing. I'd never surfed before but now I can stand up and surf.

There seems to be a lot more work we do on computers in high school, which I really enjoy, there's not so much writing. I like Design and think I could imagine myself doing something like that for a career. In Digi-Tech we use programs like Powerpoint to piece together our work and I can't wait to learn Adobe Photoshop and Illustrator.

POSITIVE BEHAVIOUR
SUPPORT
REWARD DAYS

Indi-Rose

North Mandurah Primary

I've really enjoyed coming to John Tonkin College this year. I get to catch up with my cousin every day, which is really cool.

Maths is my favourite subject, with Mr Walli. We can learn at our own pace and Mr Walli makes it fun. I never thought I'd enjoy learning maths!

"Mr Walli makes (maths) fun!"

Jayda

North Mandurah Primary

Miss Masina is my favourite teacher! I was worried that we were going to get a lot of homework in high school, but really it's just studying when there is a test coming up.

HOME ECONOMICS COOKING

Fin Falcon Primary

I think high school is a lot more fun than primary school because there is a lot more hands-on learning and you get to do experiments in Science.

My favourite subject this year is Metal Work, we are making metal men, it's been fun learning the machines in the D&T rooms.

**"THERE'S A LOT MORE
HANDS-ON LEARNING IN
HIGH SCHOOL."**

Eilene & Liana Mandurah & Greenfields Primary

Eilene

I like that I have made new friends, and everyone is really helpful. I thought reading the timetable would be difficult, but for me the difficult part has been actually remembering the timetable. If I forget which class I have, my friends all let me know or I go to student services, so it's super easy!

Liana

I was worried high school would be really hard and it's not. Teachers help you to work through everything and all my work gets done in class.

I have all new friends now too! I have three really close friends and we all catch up after school. I only knew one person on my first day.

SURF SCIENCE

SPECIALIST PROGRAM

Shylaah Meadow Springs Primary

My favourite class is Cooking in Home Economics with Ms Fitzgerald. I'm really enjoying high school, it's fun!

I have great teachers, but I do miss my teachers from primary school and would like to give a 'shout out' to Miss Ross and Miss Davies.

**"SHOUT OUT TO MY
PRIMARY TEACHERS.."**

Zanthie North Mandurah Primary

I was accepted into the Surf Science Specialist Program at John Tonkin College and already it has helped me to realise that I have a interest in Marine Biology as a career option.

I have also always enjoyed learning about the ancient world and this year Miss Spence has been covering this topic in HASS. I really like learning about the history of architecture and it's also something I have a personal interest in when I'm travelling.

DAWESVILLE
MARINE CENTRE

MARINE STUDIES

SURF SCIENCE SPECIALIST PROGRAM

20
24

A science and outdoor education specialist program, endorsed by Education Department of Western Australia, for students from year 7 to 9 with a keen interest in studying the marine environment.
